

**SIMULATION:
IMPROVING CAPABILITY
AND COMPETITIVENESS**

SimTecT 2007

SIMULATION CONFERENCE AND EXHIBITION

4-7 June 2007

www.simtect.com/2007

Brisbane Convention Centre,
Brisbane, Queensland, Australia

SimTecT 2007 is held under the auspices of the
Simulation Industry Association of Australia (SIAA) Ltd

SIMULATION CONFERENCE AND EXHIBITION

SimTecT 2007

www.simtect.com/2007

Message from the Convenor

In this increasingly outcome and efficiency focused environment, organisations strive to do more, and to do it better. This applies to customers and suppliers alike, in all sectors

— including defence, aerospace, mining, manufacturing and transport.

Our theme “**Simulation - Improving Capability and Competitiveness**” focuses on the opportunities that simulation provides to understand and improve the way we operate now, and into the future. It encompasses the use of simulation for experimentation and analysis, concept and capability development, system design refinement and validation, process and systems modelling, and in the training of users.

The **SimTecT 2007** Conference and Exhibition builds on the success of the previous twelve SimTecTs to provide an opportunity for the simulation community to discover the latest research and product advances, and to discuss applications with developers and users.

I look forward to seeing you in Brisbane on 4th June 2007.

Jawahar Bhalla

Message from the SIAA Chairman

Simulation provides a key tool for designers, regulators and users to deliver better results in today's increasingly competitive environment.

Growing the regional simulation industry is the core objective of the Simulation Industry Association of Australia. Fostering skills and technology, seeding collaboration, informing customers and governments, and demonstrating the outstanding capabilities of the simulation industry are all vital elements of the SIAA strategy: SimTecT encompasses them all.

We particularly encourage overseas visitors to come to SimTecT to see the latest developments, and to experience Australian hospitality.

For your personal benefit, and for the development of the use of simulation and modelling, I urge you to attend this very special conference.

See you at SimTecT!

Alan Johnson
